Death Trap

DEPLOY (default Layout A/B = diagonal, long approach · Layout C = close → screen harder)

- **Castle rear-centre:** Vahl+Paragons hammer + the 2+/4++ MM-Retributor brick, LOS to the mid.
- **Mid-forward (hull-down T1):** 2 Immolators (flamers) + 2 Dominions (melta / flamer split-halves).
- **Hold centre:** Sacresants + Canoness (ANTI-DEEP-STRIKE bubble) + Dogmata (+1 OC).
- **Screen / OC / actions:** Battle Sisters on home+expansion; Zephyrim & Seraphim flanks or Reserve.

EVERY SHOOTING PHASE — SOFTEN, then DELETE

1. IMMOLATORS shoot first (auto-hit) → strip Benefit of Cover on 2 priority targets.
2. CASTIGATOR shoots → +1 AP (Rites of Castigation) on the single key target.
3. VAHL+PARAGONS → delete anchor A (re-roll H&W, BS2+, half-range Melta 2).
4. MM-RETRIBUTOR + a melta DOMINION → anchor B.
5. Flamers / heavy bolters / jump → clear chaff + screen. Miracle die = a clutch melta WOUND.

TARGET PRIORITY

- **MELTA (only when softened):** Land Raiders, Kill Rigs, ONE Monolith, Repulsor, W4 Terminators.
- **FLAMER / BLAST:** hordes & chaff (Boyz, Deffkoptas) — Castigator + Immolation flamers + heavy bolters (~37 Boyz/turn).
- **IGNORE (un-killable):** C'tan, extra Monoliths → play the MISSION, don't dogpile (melta is 3× overkill on one target).
- **KILL THE ENABLERS:** enemy support characters, Reanimator, Lokhust, Lychguard, Sternguard/Eradicators, Scouts.

PER ROUND

- **T1:** Advance to open lanes; strip + kill anchor A; start actions (Decoy / Booby-Trap); grab a central objective; screen the Deep Strike.
- **T2-3 (peak VP):** Kill anchor B; score primary HARD; contest expansion; jump units for enemy home / actions.
- **T4-5:** Hold what you have; deny their scoring; trade nothing; close on primary + secondaries.

DON'T (T3 W1 — girls die a lot)

✗ Sit within 12" of flamers (auto-wipes a squad). ✗ Let a horde charge you. ✗ Over-melta the un-killable. ✗ Over-expose transports. ✗ Dogpile one anchor.
